

## Letter of Recommendation

1/2

To Whom It May Concern,

30.07.2025

I am pleased to write this letter of recommendation for **Mr. Abel Nagy**, who collaborated with our **Rödl & Partner Law Office**, as a freelance mobile app developer in preparation for a one-time sporting event held in Budapest in June 2025.

Mr. Nagy was responsible for the end-to-end development of a custom mobile application designed specifically for this event. The app was made available for download on both iOS and Android platforms, providing participants with an intuitive and reliable tool to access all essential event information, including schedules, maps, real-time updates, and more.

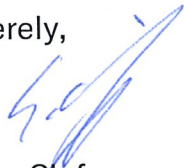

Throughout the development process, Mr. Nagy demonstrated a high level of technical skill, professionalism, and attention to detail. He worked independently, communicated progress clearly, met all deadlines, and responded quickly to our feedback and changing requirements.

The feedback from our event participants was overwhelmingly positive. Many expressed their appreciation for the app's functionality, ease of use, and usefulness during the event. It significantly enhanced the overall experience and proved to be a real asset to the success of the event.

I can wholeheartedly recommend Mr. Nagy for any freelance or contract-based development projects. His work was of excellent quality, and we would gladly work with him again in the future.
